What is domain name management?

- **Determining** domain name strategy to standardise the registration process.
- **Identifying** and acquiring domain names (and extensions) relevant to your projects and brand.
- **Preserving** your rights by controlling renewals and updating ownership information.

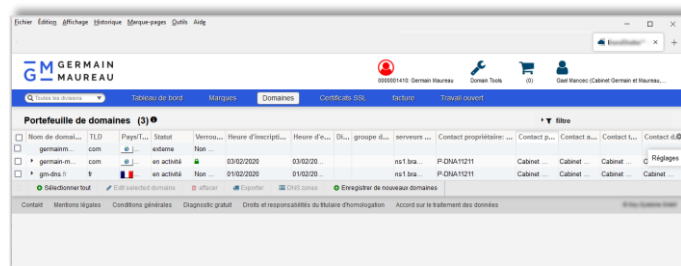

Why entrust us with domain name management?

- The key to successful domain name management is a **cross-disciplinary approach**. That is why we have skilled teams available to assist you in our legal, technical and marketing departments.
- We register to protect domain names--helping you to choose from more than 1200 extensions--**to gain a commercial advantage**.
- We regularly review your portfolio to ensure that it is both **legally and technically compliant**.
- We regularly provide our clients with **up-to-date information** on good management practices and changes to regulations impacting their domain name portfolios.
- We have **AFNIC accreditation** as a **domain name registrar**, allowing us to offer our clients a comprehensive and competitive service for domain name management: reservation, negotiation and litigation.

Our practical approach to managing domain names

- Identifying the domain names to be first-time registered or acquired from third parties.
- For each domain name, putting into effect the best settings for you.
- Regularly evaluating your domain name portfolio usage to preserve your rights.

Our services

- **Registering and transferring** domain names
- Domain **privacy protection and trustee** service (anonymisation)
- **Buying back** domain names
- **Backorder**: automatically purchasing the domain name on expiry
- **Identifying** relevant labels and extensions
